

Muhammad Naeem SHEHRYAR

[LinkedIn](#)

Education

- Bachelor of Arts with Honours (Urban Studies), Yale-NUS College
-

Professional Experience

JUNE 2022 – JULY 2022

Intern, Karachi Urban Lab

- Researched, documented, and analysed the effects of rising temperatures on outdoor workers across Karachi using mixed-methods research. This included ethnographic surveys, participant observation, climate data collection, and GIS analysis.

JUNE 2020 – OCTOBER 2021

Student Associate, Intercultural Engagement Office

- Designed and delivered a range of pedagogical programs, including an eight-part “Foundations in Social Justice” workshop series. Co-designed and co-delivered orientation programming for both students and student leaders in a hybrid format.
 - Co-organised and managed communications for a hybrid-format “Diversity Week” featuring more than 20 events and internal and external collaborations, attended by 350 students.
-

Research Area/Topic/Discipline

- Urban Studies
 - Infrastructure Studies
 - Climate Governance
 - Ethnography (with an emphasis on narrative)
 - Fiction and creative non-fiction as social science methodologies
-

Short Biography

M. N. Shehryar is a Research Assistant at ARI’s Inter-Asian Engagements Cluster, where they are responsible for conducting original research and project management for the Carbon Governance in Southeast Asia (CGSEA) grant.

Shehryar graduated as an Urban Studies major and an Arts & Humanities minor from Yale-NUS College in 2023. Their interdisciplinary honours thesis explored the role of coastal infrastructure in mediating the relationships Singaporeans can and do form with their coastline. They are a published writer, and incorporated creative writing as a core methodology in their project.
