Short Biography

Vineeta Sinha is Professor of Anthropology and Director of the Asia Research Institute (ARI) at the National University of Singapore (NUS). Her research focuses Hindu religiosity in the Diaspora, religion-state encounters, religion, commodification and consumption processes, Hinduism's entanglement with materiality and visibility, histories of Sociology and Anthropology, critical pedagogy, women's structural location and leadership in academia and decolonising knowledge production. As an ethnographer, her research has focused on how Hindu communities in Singapore and Malaysia negotiate inherited traditions even as they creatively produce novel religious imaginaries in urban, diasporic sites.
